seerseeker1 created an issue ([rhowardstone/Epstein-research#10](#))

Title: Epstein Files HR4405: Dataset 9 corruption traced to DOJ source (unrecoverable), Dataset 10 corruption traced to Internet Archive upload (69 files fully recoverable)

Dataset 9 — 6 Corrupted Files (Unrecoverable)

Affected files:

- EFTA00593870
- EFTA00595694 (*previously undocumented*)
- EFTA00597207
- EFTA00645624
- EFTA01175426
- EFTA01220934

Investigation:

- Files downloaded directly from DOJ website are genuine PDFs (%PDF-1.4) but corrupted
- Ghostscript can repair PDF structure but content is completely empty
- Adobe Acrobat and online repair tools cannot open them
- Corruption exists at the **DOJ source itself**, predating Internet Archive upload
- EFTA00595694 was not previously documented by the research community

Conclusion: These 6 files are **permanently unrecoverable**. The original documents were either never properly digitized or were corrupted during DOJ processing before public release.

Dataset 10 — 69 Corrupted Files (Fully Recoverable)

Affected files: EFTA01824720 through EFTA01824788 (69 sequential files, VOL00010/IMAGES/0231/)

Investigation:

- Files in Internet Archive zip are structurally damaged with "End-of-File" errors
- Re-extraction from original 78.6GB zip produces identical corrupted files
- Same files downloaded directly from DOJ website are clean and open correctly

- Corruption occurred during **Internet Archive's upload/processing**, not at DOJ source

Resolution: All 69 files successfully recovered by downloading directly from:

[https://www.justice.gov/epstein/files/Dataset%2010/EFTA018247\[XX\].pdf](https://www.justice.gov/epstein/files/Dataset%2010/EFTA018247[XX].pdf)

Notes:

- DOJ requires age verification (18+)
- Automated downloads blocked – use Firefox with PDF set to "Save file"
- Active age verification session cookie required

Summary Table:

Dataset	Files Affected	Source of Corruption	Recoverable
Dataset 9	6 files	DOJ source	 No
Dataset 10	69 files	Internet Archive	 Yes
Total	75 files		

Recommendation:

- Internet Archive should re-upload Dataset 10 zip with corrected files
 - The 6 Dataset 9 files appear permanently lost – DOJ should be notified
 - Other researchers downloading from Internet Archive should replace Dataset 10 files directly from DOJ
 - EFTA00595694 should be added to the known corrupted files list for Dataset 9
