[Left](#)[Center](#)[Right](#)[Bias Comparison](#)

- On Feb 12, Reuters reported that Dr. Mehmet Oz, Administrator of the Centers for Medicare and Medicaid Services, emailed an invitation to convicted sex offender Jeffrey Epstein dated February 1, 2016.
- The Justice Department's files show more than three million pages released under the Epstein Files Transparency Act renewed interest and revealed public figures named in the files.
- Records show that Oz appears multiple times, including a January 1, 2016 email that is fully redacted; appearing in the files does not mean Oz is accused of wrongdoing.
- The release has prompted immediate backlash, with scrutiny of Elon Musk and Bill Gates and calls for Commerce Secretary Howard Lutnick to resign after Epstein meetings; Attorney General Pam Bondi defended DOJ at a House Judiciary Committee hearing on Wednesday.
